# BLANK PAGE LADDER

The image shows a 'BLANK PAGE LADDER' template. It consists of a central vertical column and four side columns (two on each side) that are staggered vertically. The central column is the tallest, while the side columns are shorter and positioned to the left and right of the central column. The entire page is filled with horizontal blue lines, and a thick blue horizontal line is positioned at the top, just below the title. The ladder structure is outlined in a thick blue line, and the interior of the central and side columns is shaded light blue.

# BLANK PAGE LADDER

A blank page ladder template consisting of four vertical columns and horizontal lines. The columns are arranged in a descending staircase pattern from top to bottom. The top-most column is the widest, and each subsequent column below it is narrower, creating a descending staircase effect. The columns are defined by blue outlines, and the horizontal lines are also blue. The ladder is centered on the page.
