

CONNECT ME

Our online yearbook building tool has everything you need to
create your own award-winning yearbook.

With ConnectMe we provide you with all the tools you need to create your book, either from scratch or with pre-designed templates. Through this online portal you can easily manage your entire project on your own or as a team anywhere in the world. The innovative design and intuitive layout of ConnectMe ensures no time is wasted teaching the program and instead use your time building, designing, and creating content. As a part of our Friesens team the safety of your school's personal data is important to us, that is why ConnectMe is encrypted to protect your students and their original content. To help you keep your team focused and working on their pages, we created team management tools for you to assign unique tasks and access to different members of your team.

Create your own pages from scratch and save them as reusable templates, or use re-designed award-winning templates.

Upload and flow your portraits directly into your layouts

Keep track of students and teachers with our indexing tool

Ensure your theme is consistent throughout the book by managing your fonts and colours from one central location

Manipulate your photos directly in ConnectMe

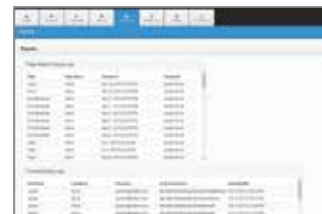

Set up your online store to sell more yearbooks

Manage your entire project from the dashboard

Proof and approve your pages online

Monitor work done by individual users with reporting logs

If you have any questions regarding our online program you can find step-by-step guides in the help menu, or ask your service specialist or local consultant, to walk you through.
